Comments

- * Two Man match play- make it a pick your partner. Wish we could get the winners and payouts posted quicker on all tournaments.
- * Speed of play is a problem especially during tournaments
- * During cooler months buffet indoors, warmer weather outdoor grill
- * I feel the tournaments are about camaraderie. You can't get that with a box lunch or turn grill. I'm out if those are the only options.
- * I'm not sure why but the interest in our tournaments and daily play is not what it was in years past. The vast increase in our senior membership has made no difference and in fact it's been the opposite. Again I don't have the answer but the new group of members just do not have the same interest and the poor attendance in our events and dinners is sadly very evident.

- * You should make a rule that if you don't play in the weekly play days a minimum amount, you are not eligible for the tournaments.
- * Given that every Wednesday is a senior day, why not add a few more major tournaments as they attract players that aren't playing on play days
- * Go Air Force BEAT Wyoming!!!
- * Grown tired of the fun day tournament format
- * I seldom play these or the weekly play days because play is too slow.
- * Build foursomes by handicap. start low handicaps first then tee off in order to high handicaps. give low handicaps 7minutes spacing moving up to 10 minutes spacing for high handicaps. the lunches have been very good.
- * Suggestion: Tournament between each level players. As play against As; Bs against Bs; etc.

- * More of the same handicaps play together on play days with blind partners.
- * 2 Man Match play is a good tourney but it should be as it always was - choose your own partner.

- * Lower handicap players do not join because of slow play.
- * There should be more date separation between the MGA and senior member-member and member guest.
- * Perhaps for some tournaments let players pick their partners and then enter tournament.
- * Need to have a net skins tournament but with a max of 1 hdcp stroke per hole
- * The member-member is a great format but there should absolutely be 5 (FIVE) 4ball matches.

- * McMains has been outstanding!
- * Consider starting times later/last to play for higher handicap / slower players for tournaments and play days.
- * In general, the tournaments are to expensive. Cost has been raised now to \$60 plus cart fee and participation is dwindling. Members who love to gamble should really be a part of the MGA.

- * Handicaps adjustments for tournaments are problematic. Especially for those with limited playday participation because of travel/other. Consider relook and revise to those with teams

- * Consider awarding winnings to top 4-5 players or team in lieu of spreading out winning to more team/players, so winners get a better return for playing in the event.
- * Tournaments with carts and lunch are getting too expensive. It's almost \$80 per tournament. Think one per month might be overkill.
- * Thanks to the Board for organizing all these activities!
